pattern *guide*

ASSEMBLING THE FULL-SIZE PATTERN PRINTOUT

1 When preparing to print the PDF, make sure that you are printing it at 100% and that there is no scaling. Check the settings for page scaling (should be "None") and check the preview to make sure that you will be printing at full size. Make sure that the box labeled "Auto-Rotate and Center" is unchecked (instructions apply specifically to Adobe Reader; if using another PDF reader, check for similar settings). To ensure that the pattern has printed at the correct scale, check the size of the TEST SQUARE. The Test Square should measure 2" × 2" (5 × 5 cm).

2 The pages are numbered in rows, so the first row of pages is numbered 1a, 1b, 1c, etc. Line up the rows and match the dotted margin lines together (fold or cut off the excess paper around the dotted lines to make this easier). Tape the pages together.

3 Refer to the Pattern Insert Guide instructions on page 125 for laying out, marking, and cutting out your pattern pieces.
